

eStatements Features and Benefits

As a standalone service, eStatements can either be integrated into our advanced payment solutions or used alongside your existing payment processing service. We'll help you keep track of who's opted in to get eStatements and who wants to receive paper statements so that your patients can get their invoices in their preferred format. Your patients will receive the eStatement via email and simply click through a link to pay their bills online. Not only is this more convenient for your patients, but you'll also get paid faster and improve your cash flow.

We take care of the entire billing process for you—from statement design to payment tracking—so you don't have to worry about the administrative work and associated costs.

Why Use Our eStatement Service?

- Eliminate cumbersome paperwork that could easily get lost in the clutter so that patients will pay their bills on time.
- Shorten payment cycles and reduce time in account receivables so you can improve your cash flow.
- Get up and running in no time with our easy setup and upload process.
- Project a professional image with our patient-friendly statement design.
- Integrate our service with your existing systems for seamless data transfer to eliminate delays and errors.
- Consolidate billing from different providers in your facility, allowing patients can settle all their payments in one place.
- Eliminate printing and mailing expenses associated with paper statements.
- Process payment securely and adhere to the highest industry standards using our HIPAA compliant and **HITRUST** certified platform.

eStatements Integrate With:

INCREASE COLLECTIONS

By facilitating the invoicing process with our eStatement service, you can make it easy for patients to pay their bills, thus shortening your billing cycles and improving collection rates.

IMPRESS CUSTOMERS

71% of consumers want to pay all their healthcare bills in one place, while **65%** would consider switching healthcare providers for a better healthcare payment experience.

ENSURE SECURITY

As healthcare databreaches continue to devastate the industry, consider outsourcing your printing and mailing needs to a HITRUST Certified vendor to ensure your patients' sensitive information is protected!
